

Wayne Gates MPP, NIAGARA FALLS

Dear invited guests,

It is my distinct pleasure and honor to invite you to the **Tesla Energy Institute - Tesla Energy Future International Conference 2026 being held in Niagara Falls, Ontario Canada be November 3-6, 2026.** It has been 10 years since the first conference was held here in Niagara and we are delighted to welcome you back!

As you well know, Nikola Tesla revolutionized electrical energy transmission right here in Niagara Falls – designing the first large-scale hydroelectric power plant in Niagara Falls New York. Tesla's alternating current electrical engineering development formed the basis for current modern grid around the world.

This conference will be a great opportunity to industry leaders to discuss sustainable and innovative approaches to power generation, distribution, storage and environmental protection and I am looking forward to the product of those discussions.

The conference opening and closing ceremony will be held at the beautiful Niagara Parks Power Station in the City of Niagara Falls Ontario Canada.

I look forward to greeting each of you in person at the event.

Sincerely,

Wayne Gates, MPP
